

### Awards & Credentials

Daintree Capital is proud to have been nominated as a Finalist for the Money Management Fund Manager of the Year Award in the Emerging Manager category for 2019. We are also a signatory to the United Nations Principles for Responsible Investment.

### Fund Description

The Daintree Core Income Trust NZD (the Fund) is an absolute return, cash plus, investment grade bond strategy. The Fund is not constrained by any traditional fixed income index, which provides us the flexibility to seek out the best risk adjusted returns available across regions, sectors and securities.

### Fund Objective

The aim of the Fund is to provide a steady stream of income and capital stability over the medium term by investing in a diversified portfolio of fixed income securities and cash. The Fund seeks to produce a return (net of fees) that exceeds the RBNZ Cash Rate by 2.00-2.50% p.a. over a rolling three-year period.

### Monthly Highlights

- We said last month that the “coronavirus-related fall in markets ...may be a continuing market theme over the next month or two.”
- This was certainly the case in February, with risk markets falling strongly in the last week of the month. In the midst of falls across most sectors, the broad Australian equity market lost around 7.7% and as would be expected, credit spreads widened. Australian credit spreads outperformed the US and Europe though, where investment grade spreads widened by 15-25bp with high yield spreads widening much more.
- Our portfolios did well considering this backdrop, with duration and broader overlay positions offsetting the impact of wider credit spreads.
