

### Awards & Credentials

The Daintree Core Income Trust has recently been awarded a Recommended rating by Zenith. Daintree Capital is also a signatory to the United Nations Principles for Responsible Investment.

### Fund Description

The Daintree Core Income Trust NZD Unit Class (the Fund) is an absolute return, cash plus, investment grade bond strategy. The Fund is not constrained by any traditional fixed income index, which provides us the flexibility to seek out the best risk adjusted returns available across regions, sectors and securities.

### Fund Objective

The aim of the Fund is to provide a steady stream of income and capital stability over the medium term by investing in a diversified portfolio of fixed income securities and cash. The Fund seeks to produce a return (net of fees) that exceeds the RBNZ Cash Rate by 2.00-2.50% p.a. over a rolling three-year period.

### Monthly Highlights

- August saw further outperformance from credit markets. Locally, non-financial bonds were the main driver. Meanwhile, bank senior spreads have surpassed their pre-Covid tights.
- Offshore credit markets continue to be driven by lower-rated issues, as investors seek yield. Companies are taking advantage, and primary issuance volumes remain high.
- Investors began to consider the potential for future inflation more seriously during August, and accordingly long bonds were under pressure. We continue to see asymmetric risk in longer tenor interest rates and remain comfortable with our portfolios holding very little duration risk.
- Performance was driven by credit spread compression, offset a little by currency positioning in our Overlay.
